

Coni's Book Nook

Scene Bookmarks Print Kit ■

Seven whole-scene bookmarks, each with its own saying,
ready to print, cut out, and tuck into your favorite book.

How to print ■■

- Print on FIRM paper — cardstock (65 lb / 176 gsm or heavier) works best.
 - Set your printer to 100% scale — do NOT use "fit to page."
 - Choose "Best" or "High" print quality for the brightest colors.
 - Cut along the dashed lines with scissors or a paper trimmer.
 - Optional: laminate your bookmarks so they last for years! ■

Works on any normal home printer — no fancy printer needed! ■■

No cardstock? Regular paper works too — just a little less sturdy. ■

We are the dreams of our ancestors.

Every ancestor has a story worth telling.

Roots run deep, stories live on.

Once upon a time...

Honor the past, inspire the future.

Listen — the ancestors are speaking.

Follow the river of your story.

Bloom where you are planted.
