

Coni's Book Nook

Fold-Your-Own Corner Bookmark Kit ■ *Free with love!*

Welcome to the Nook, crafty friend! This little kit shows you how to fold a sweet corner bookmark from a square of paper — just fold, dab a little glue, and decorate. It slips right onto the corner of your book page!

What you'll need:

- The printed paper square on page 2 (or any pretty 6-inch square of paper)
 - Scissors
 - A glue stick or a dab of craft glue
- Crayons, stickers, or gel pens for decorating

Print page 2, cut out the square, and let's fold!

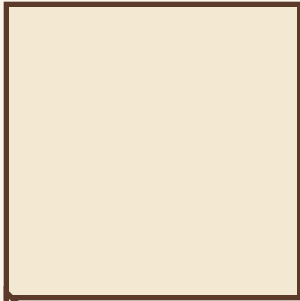

✂ Cut along the outer edge of the square, then turn to page 3 to fold! ✂

Let's Fold!

Follow the pictures — mini-me is cheering you on! ■

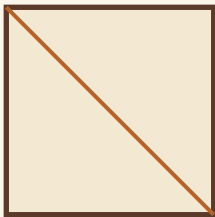

Step 1: Cut your square

Cut out the 6-inch paper square.
Lay it pretty-side DOWN on the table.

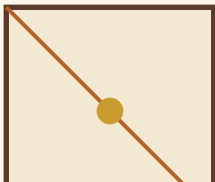

Step 2: Fold in half, corner to corner

Bring the bottom-left corner up to meet the top-right corner. Crease well! You now have a triangle.

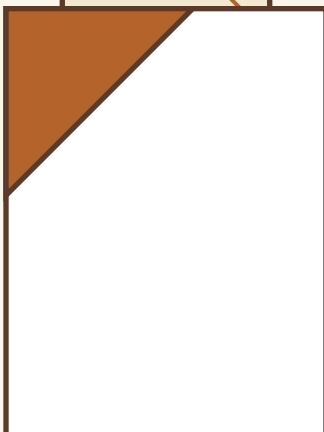

Step 3: Fold the two corners up

Take the bottom-left and bottom-right corners and fold them UP to meet the top point. Crease well!

Step 4: Glue the flaps

Lift each folded flap and dab a little glue underneath, then press flat. Let it dry.
Now it's a pocket!

Step 5: Decorate & use!

Decorate your bookmark however you like,
then slip it over the corner of a book page.
Happy reading! ■
